DD/P Headquarters Unvouchered T/O positions. The present study has not included an investigation of the considerations justifying this use of Confidential Funds. However, the comparatively large number of such Unvouchered Funds personnel at Headquarters appears excessive. The Inspection & Review Staff, DD/P will review this situation and report separately.

6. Copies of the reports of the individual components are attached as Tab E.

7. It should be emphasized that the analyses herein made are based upon figures submitted directly by each Division and Staff from its internal records. The accuracy of the study therefore is completely dependent upon the accuracy and consistency of the individual component reports. However, cross checking by the Inspection & Review Staff leads it to believe that the figures as submitted are reasonably acceptable for the purposes of this study.
